MCDONALDS

PRODUCT

ACCEPTABILITY

Core menu items stay the same worldwide, with some products adapted for local tastes.

USA

- Offers Big Mac, Quarter Pounder, Chicken McNuggets, fries, McCafé drinks, desserts, and breakfast.
- Quick service, consistent taste, and good value through combo meals.

PHILIPPINES

- Includes Chicken, Spaghetti, Burger, Rice meals, and seasonal Filipino flavors that appeals to Filipino Families

FRANCE

- Offers Croque McDo, macarons, premium coffee, salads, and Big Mac.
- Items provide gourmet flavors, match café culture, and keep core McDonald's favorites.

PRICING

AFFORDABILITY

Pricing adapts to local costs while keeping customers aware of good value.

USA

- Uses value menus, combo meals, and app deals to keep prices affordable.

PHILIPPINES

- Cheaper option for ala carte, offers a lot of family bundle meals.

FRANCE

- Prices are higher due to labor and food costs, but combo meals and some premium items maintain perceived value.

PLACE

ACCESSIBLITY

McDonald’s uses multiple channels to make products easy to access in each country.

USA

- Locations include cities, suburbs, and highways, with dine-in, drive-thru, delivery, and online ordering.

PHILIPPINES

- Restaurants are in malls, urban areas, and near schools, with dine-in, drive-thru, delivery apps, and online ordering.

FRANCE

- Restaurants are in cities and tourist areas, with dine-in focus, some drive-thru, and delivery via apps like Uber Eats.

PROMOTION

AWARENESS / AFFINITY

Promotions adapt to local culture and media habits while maintaining McDonald's global brand identity.

USA

- Uses Social Media ads such as Instagram, TV, well known Apps.

PHILIPPINES

- Uses social media, TV, celebrities, limited-time offers, and family-focused promotions.

FRANCE

- Uses social media, TV, print ads, seasonal promotions, and campaigns emphasizing gourmet items.

STRENGTHS

- Strong global brand recognition with consistent core products.
- Ability to adapt menu and promotions to local cultures.

AREAS TO IMPROVE

- Health perception—could offer more healthy options globally.
- Pricing in high-cost countries may affect affordability perception.
